Policy Workshop "Coordinating Policy Recommendations for Durable Action"

How to produce a policy recommendation?
How can you effectively address European Commission representatives? Such kind of questions will be the main subject of this interesting initiative that will take place in Brussels, the 14th of February. The workshop is an initiative of two H2020 funding projects: COURAGE and DANDELION; it aims to coordinate policy recommendations of European projects in the field of cultural heritage by raising the most pressing issues in the field and finding solutions together with policy makers from the European Commission and European think tanks.
