PREFORMA presented at ICA 2014 Conference in Girona

The **2nd Annual Conference of the International Council on Archives**, hosted and organised by Girona City Council, through its Municipal Archive, was a great success with almost 1000 registered participants.

PREFORMA was presented to the attendees in one of the parallel sessions in the afternoon of Monday 13th of October by Antonella Fresa, Technical Coordinator, and Peter Pharow, Responsible of the first design phase.

In the morning of the same day, the PREFORMA partners took the opportunity to meet together to analyse the results of the evaluation of the bids that have been submitted and to plan the next steps, in the light of finalising the negotiation of the contracts with the awarded suppliers by the end of the month.

Download the presentations of PREFORMA at the ICA Conference: general presentation (Antonella Fresa), technical presentation (Peter Pharow).
