

PREFORMA presented at the Yearly Assembly of German Museum Association

On 7 May 2014 PREFORMA project was presented at the **Yearly Assembly of German Museum Association**.

The event, organised by the German Museum Association (DMB), brought together IT and documentation professionals in museums as well as representatives of German national projects in the cultural heritage sector.

A presentation of the project was delivered by Stefan **Rohde-Enslin** from **SPK** (Stiftung Preussischer Kulturbesitz - Prussian Cultural Heritage Foundation) with the aim to familiarise the audience with the project and raise awareness that files have to be checked before being preserved.
