

Results of the PREFORMA CfT published!

The results of the [call for tender](#) launched by **PREFORMA** in June 2014 are now available.

All tenders eligible and not subject to the exclusion criteria have been evaluated by a number of experts and a decision panel.

By a decision on the **28th of October 2014**, Riksarkivet, on behalf of the PREFORMA Consortium, has decided to award contract to the following tenderers:

- VeraPDFa Consortium** (to work on PDF/A)
- Preservica** (to work on PDF/A)
- Easy Innova** (to work on TIFF/EP)
- MediaArea** (to work on MKV/FFV1/LPCM)
- KU Leuven - Libis Library IT Services** (to work on TIFF/EP)
- Université Catholique de Louvain** (to work on MKV/JPEG2000/LPCM)

The 6 tenderers will start working starting from November 2014 on the design and development of an **open-source toolset for conformance checking of digital files** intended for **long-term preservation in memory institutions**.

The PREFORMA project would like to express its thanks to all the organisations who participated in the Call for Tenders and would like to remind to all interested parties to [join our community](#) and to follow the progress of the project.
