UNCHARTED Co-creation workshop in Barcelona

The second co-creation workshop of the UNCHARTED project took place in Barcelona, at Centre d'Estudis i Recursos Culturales, on 15-16 June 2023.

Members of the Advisory Board, invited stakeholders and partners of the consortium participated actively in the event.

The full programme of the workshop is available for download from the project's website.

The workshop, led by UB, the project coordinator, in collaboration with CNRS, lead partner of WP4, and ELTE, lead partner of WP5, was the occasion to review the progress of the work.

The research conducted in the first three work plackages (WP1, WP2 and WP3) is concluded and their outcomes represent the basis for the work conducted in the latest two work packages (WP4 and WP5) that are still ongoing.

WP4 is studying the central challenge of assessing strategies and effectiveness of cultural policy and institutions in taking full advantage of the potential benefits of culture for society.

WP5 is running a programme of experimental demonstrations around three axes:

- Cultural strategic planning
- Culture-led urban regeneration
- Cultural information systems

The next plenary meeting of UNCHARTED will be held in Budapest at the beginning of December 2023.
