UNCHARTED Co-creation workshop in Barcelona

The <u>second co-creation workshop</u> of the UNCHARTED project took place in Barcelona, at Centre d'Estudis i Recursos Culturales, on 15-16 June 2023.

Members of the Advisory Board, invited stakeholders and partners of the consortium participated actively in the event.

The full **programme** of the workshop is available for download from the project's website.

The workshop, led by <u>UB</u>, the project coordinator, in collaboration with <u>CNRS</u>, lead partner of WP4, and <u>ELTE</u>, lead partner of WP5, was the occasion to review the progress of the work.

The research conducted in the first three work plackages (<u>WP1</u>, <u>WP2</u> and <u>WP3</u>) is concluded and their outcomes represent the basis for the work conducted in the latest two work packages (WP4 and WP5) that are still ongoing.

<u>WP4</u> is studying the central challenge of assessing strategies and effectiveness of cultural policy and institutions in taking full advantage of the potential benefits of culture for society.

<u>WP5</u> is running a programme of experimental demonstrations around three axes:

- Cultural strategic planning
- Culture-led urban regeneration
- Cultural information systems

The next plenary meeting of UNCHARTED will be held in Budapest at the beginning of December 2023.
