

Riga Summit 2015 on the Multilingual Digital Single Market

The Riga Summit will gather government officials, business leaders, technology developers and language researchers, who will forge a unified vision for the multilingual digital single market.

At the event, stakeholders will work together to develop a combined strategy, identify goals, establish partnerships and initiate concrete actions to bring about the vision of a digital single market without language barriers.

Besides a high-level plenary, **the Riga Summit** will consist of multiple workshops, roundtables and technology showcases. The event will be hosted in Riga, Latvia, as part of the **2015 Presidency of the Council of the European Union**.

Day 1 - META-FORUM 2015

[META-FORUM 2015](#) is an international conference on powerful and innovative language technologies for the multilingual information society, the data value chain and the information market place. The two special themes of [META-FORUM 2015](#) are Multilingual Technologies for the Digital Single Market and Language Technologies for the Big Data Challenge. A brief summary of the programme is available at <http://www.meta-forum.eu>. The online registration for META-FORUM 2015 is open as usual, participation is free of charge.

Day 2 - Main Conference

- Presentations from industry and public sector
- Keynote speeches
- Plenary session
- Start-up pitch event
- Technology exhibitions
- Roundtable discussions

Day 3 - Main Conference - MultilingualWeb

W3C announced [the 8th MultilingualWeb workshop](#) in a series of events exploring the mechanisms and processes needed to ensure that the World Wide Web lives up to its potential around the world and across barriers of language and culture. The workshop brings together participants interested in the best practices and standards needed to help content creators, localizers, language tools developers and others meet the challenges of the multilingual Web. It provides further opportunities for networking across communities.
