SCAPE Project Demonstration Days

The EU-project SCAPE invites you to visit a SCAPE partner to be introduced to some of the developments within the project. The Demonstration visits will take place during May/early June 2014.

To schedule a visit, please send an email to Jette Junge (jgj@statsbiblioteket.dk), explaining which partner and/or topics you would like to see presented as well as preferred dates for the visit.

SCAPE addresses long term digital preservation of large-scale and heterogeneous collections of digital objects. Learn more about SCAPE at www.scape-project.eu.

A number of partners will demonstrate the tools and services developed in SCAPE and used in their own environments. The demonstration assets include:

- The SCAPE Platform
- SCAPE Preservation Components
- Preservation Watch
- Commercial Products

Choose your visit by topic: http://wiki.opf-labs.org/display/SP/Visiting+Opportunities+by+Topic

Decide which partner to visit by location: http://wiki.opf-labs.org/display/SP/Visiting+Opportunities+by+Institution

Or browse the ever growing list of planned events: http://wiki.opf-labs.org/display/SP/Planned+Events

We are looking forward to showing what SCAPE can do for your organisation!

On behalf of the SCAPE Demo Team,

Jette Junge
