Re-shaping Tourism: Practical Circular and Regenerative Solutions for Sustainable Touristic Destinations

The SECreTOUR project participates in the webinar co-organised with the VERNE project, in collaboration with Cross Re Tour , Green2Grow and Regenera4MED. The webinar, **Re-shaping Tourism: Practical Circular and Regenerative Solutions for Sustainable Touristic Destinations**, will take place on February 24, 2026 at 14:30 CET.

The event aims to foster practical exchange and peer learning, encourage already existing good practices around sustainable tourism and stimulate discussions, reflections and insights.

The webinar aims at finding synergies and strenghtening connections on the theme of innovation in sustainable tourism, in line with SECreTOUR's mission as part of the project's networking activity, to which EUreka3D initiative is an associated partner.
