

SEEDA-CECNSM 2020

The 5th **South-East Europe Design Automation, Computer Engineering, Computer Networks and Social Media** Conference (SEEDA-CECNSM 2020), in its 5th year, will provide an insight into the unique world stemming from the interaction between the fields of computer engineering, networks and Design Automation.

SEEDA-CECNSM 2020 will provide an international technical forum for experts from the engineering industry and academia to exchange ideas, innovations, and present results of on-going research in the most state-of-the-art areas.

After four successful conferences starting from Kastoria (2016, 2017, 2018), and then Piraeus (2019), the SEEDA-CECNSM conference series has been consolidated as a reference event in order to discuss about the newest advances in the field.

SEEDA-CECNSM 2020 will be technically co-sponsored by the IEEE Computational Intelligence Society and all papers will be indexed by IEEE Xplore.
