SEMIC Conference 2025

On 25 and 26 November, it will be possible to follow SEMIC 2025 remotely and be part of the European Commission's flagship event on semantic interoperability and digital government, organised in partnership with the Danish Presidency of the Council of the EU.

With the theme ?Interoperability for Impact,? SEMIC 2025 will explore how shared data, semantics, AI and governance models can turn policy goals into concrete benefits for citizens, businesses and administrations.

By registering for the live stream, participants will be able to:

   - Follow the technical workshops on 25 November, including sessions on semantics in data spaces, AI for digital ready policymaking and real-world cross border use cases.
   - Watch the main conference on 26 November, featuring high level discussions on harmonised standards, digital sovereignty, the evolution of the European Interoperability Framework (EIF), our Public Sector Tech Watch's Awards ceremony and more.
   - Get inspired by concrete examples and strategies that support a more open, interoperable and digital public sector in Europe!

Register now and become part of the European Commission's flagship event on semantics, interoperability, and digital government!
