# The UNCHARTED Policy Seminar in Barcelona

The last event organised by UNCHARTED took place in Barcelona on 25/01/2024, under the organisation of the University of Barcelona.

It was part of the UNCHARTED Policy Seminars activity launched with the Seminar held on Budapest on 8/12/2023.

In Barcelona, the theme connected with culture-led urban regeneration was explored via a rich programme that connected the presentation of the results of the work conducted in the frame of the Axis 2 of Work Package 5 with the points of view of a group of

external experts who participated in a vivid debate.

The title of the seminar in Barcelona is "**UNCHARTED: the Barcelona debates on cultural evaluation in cultural policy**".

The results of the work conducted in the two Policy Seminars of Budapest and of Barcelona are part of two deliverables that will be available on the project's website:

- D4.6 Roadmap for cultural policy action produced under the coordination of CEPEL, the research unit of the CNRS and Université de Montpellier (WP4 Leader)]
- D6.7 Third Policy Brief produced under the coordination of Promoter Srl.]

The debates carried out in the Policy Seminars of Budapest and of Barcelona will be included in the UNCHARTED Book, which is under editing and published during the 2024 as an open access publication.
