In the framework of the storytelling session of Euromed 2020 conference, the social platform of the REACH project will leave its contribution presenting a short speech titled 'The Reach Project Contribution to Protecting, Preserving and Valuing Tangible and Intangible Heritage through Participation'.

So far, the online high level event has gathered more than 150 followers and more than 1000 registration coming from 70 different Countries.

The 8th biannual European-Mediterranean (EUROMED) conference is co-organised by the UNESCO and the EU ERA Chairs on Digital Cultural Heritage. It brings together multidisciplinary researchers, policy makers, professionals, fellows, practitioners and stakeholders to explore some of the more pressing issues concerning Cultural Heritage today. In particular, the main goal of the conference is to focus on interdisciplinary and multi-disciplinary research on tangible and intangible Cultural Heritage, using cutting edge technologies for the protection, restoration, preservation, massive digitisation, documentation and presentation of the Cultural Heritage contents. At the same time, the event is intended to cover topics of research ready for exploitation, demonstrating the acceptability of new sustainable approaches and new technologies by the user community, owners, managers and conservators of our cultural patrimony.

Registration is free of charges and directly accessible by this [link](#)
