All the public deliverables produced during the project are available for [download](#).

The themes of the research explored during 4 years, from February 2020 to January 2024 have identified several areas of investigation that are still worth to be considered for further work.

The UNCHARTED book entitled "**The plural values of culture in Europe**" is the legacy of the project that remains as the starting point for future reflections by the partners who participated in the [UNCHARTED consortium](#), by the network of organisations and individual scholars and experts who have been involved in the project's activities, and by all the researchers interested in Understanding, Capturing and Fostering the Societal Value of Culture.

"The plural values of culture in Europe" is published by Routledge and will be available in the coming months as open access.
