

veraPDF 0.16 released and available for download

The latest version of veraPDF features full support of all PDF/A-2 and PDF/A-3 requirements (all levels). Together with earlier support of PDF/A-1 validation, it represents the first full support for all PDF/A parts and conformance levels.

Features:]

Conformance checker

validation of digital signature requirements

extraction of color space info from JPEG2000 images

validation of permissions dictionary

PDF/A-2B fix: correct implementation of CIDSystemInfo entry requirements

command line support for plugin execution to extend feature extraction

veraPDF characterisation plugins

first set of example pure java plugins available

optional sample plugin pack available through installer

Test corpus:]

112 new atomic test files for parts 2 and 3

Infrastructure:]

support for all parts and conformance levels at <http://demo.verapdf.org>

Release notes:]

<https://github.com/veraPDF/veraPDF-library/releases/latest>

veraPDF is building the definitive, open source PDF/A validator. The project benefits from a high level of development resource and PDF/A expertise. Please support our efforts by downloading and testing the software. If you encounter problems, or wish to suggest improvements, please add them to the project's [GitHub issue tracker](#). You can expect a speedy response. YPlease support our efforts by downloading and testing the software.

Keep up to date with the latest developments of veraPDF by [subscribing to the veraPDF consortium's newsletter](#).

About veraPDF]

Led by the [Open Preservation Foundation](#) and the [PDF Association](#), the veraPDF consortium is developing the definitive open source, file-format validator for all parts and conformance levels of ISO 19005 (PDF/A). The software is designed to meet the needs of memory institutions responsible for preserving digital content for the long term.

The veraPDF consortium is funded by the [PREFORMA](#) project. PREFORMA (PREservation FORMAts for culture information/e-archives) is a Pre-Commercial Procurement (PCP) project co-funded by the European Commission under its FP7-ICT Programme.
