

Volterra: the fieldwork of the case study continues

The [UNCHARTED project](#) includes as part of its Work Package 5 (WP5) the main case study about cultural strategic planning in Volterra and the experience of its nomination as City of Culture in Tuscany.

The first phase of the investigation on the case of Volterra ended in May with a campaign of interviews involving about 15 stakeholders of the territory. [Promoter Srl](#), as leader of the case study, is reconstructing the first results in a report and developing an online public questionnaire to collect the contributions of citizens.

The questionnaire is going to be published at the end of June 2023 and remains open until September 2023 to intercept the highest number of people, thanks to the support of the city administration and their contacts.

In parallel, a public event is planned to take place in Volterra in autumn 2023 to present the results of the survey.

The next appointment is scheduled for Tuesday 13 of June 2023 in Volterra for a meeting with [ELTE](#), the University of Budapest, lead partner of UNCHARTED WP5, and with the participation of institutional actors.
