WEAVE at Europeana 2021: Recover, Rebuild, Grow

Europeana 2021 will explore how the cultural heritage sector can recover, rebuild and grow in a post-pandemic world. The rich programme of talks, panel discussions and presentations promises a great engagement with all the attendees.
70% of the programme for Europeana 2021 - over 30 sessions - was co-created with cultural heritage professionals across the sector who responded to a call for proposals. Among those, the WEAVE project community is happy to present the work that is ongoing for **enabling engagement of various communities with their cultural heritage**, also with an eye on discussing the mainstream representation of minority communities heritage, advocating for a more inclusive and balanced approach.
The talk about WEAVE, conducted by Antonella Fresa representing Photoconsortium, takes place on 11th November at 2 pm.
WEAVE will also be showcased in the virtual poster session that animates the conference virtual space.
