WEAVE presented at Europeana Aggregators Forum

The Europeana Aggregators Forum is the network of national, thematic and domain aggregators: organizations which enable cultural heritage institutions to share their content with Europeana and open it up to new audiences. Twice a year all of them meet to exchange experience, present projects and align coordination, in sight of maintaining an effective aggregation ecosystem to support the development of Europeana.

WEAVE project was presented on day 1 the 26th October with a nice live presentation from the coordinator Alex Stan (IN-2), in collaboration with partner PHOTOCONSORTIUM which operates for the aggregation of the WEAVE content.
