Where to find capacity building and other events from the Eureka3D-XR project

The Eureka3D-XR project is empowering cultural heritage professionals through its competence centre on 3D digitisation, VR, AR and XR. Whether you're new to 3D heritage or looking to expand your expertise, 2025 brings exciting opportunities to learn, network and access valuable capacity-building resources.

Discover the next appointments from Eureka3D projects: capacity building events, conferences, forums and more are waiting for you!
