Introducing DARIAH

Nicolas Larrousse

TGE-Adonis, CNRS, France

Setting the context for DARIAH

Deep digital revolution in the arts and humanities

Need for AH communities to deal with the digital deluge

How to move from the traditional library/archive to digital?

Shall we create new data centers?

How do we take into account communities of practice?

How do we link to scholarly networks?

Do we have generic digital scenarios?

What is DARIAH?

We don't already have an infrastructure that would:

- ✦ **Bring together** individual state-of-the-art digital arts and humanities activities across Europe
- ✦ **Provide access to and disseminate** the research that stems from these collaborations and **Preserve it**
- ✦ Ensure that **best practices**, methodological and technical **standards** are followed

DARIAH aims to be this infrastructure but in a lightweight way.

**DARIAH link
people and (existing) resources.**

Memorandum of Understanding

DARIAH-ERIC

Dear Sir or Madam,
 We are pleased to announce that the European Commission, the German Government and the Dutch Government (together with the other national ministries, the European Commission and the German Government) have signed a Memorandum of Understanding (MoU) on the 1st of September 2011. The MoU is a non-binding agreement between the European Commission and the German Government (Bundesministerium für Bildung und Forschung) and the Dutch Government (Ministerie van Onderwijs, Cultuur en Wetenschap) to support the establishment of DARIAH-ERIC. The MoU is a non-binding agreement between the European Commission and the German Government (Bundesministerium für Bildung und Forschung) and the Dutch Government (Ministerie van Onderwijs, Cultuur en Wetenschap) to support the establishment of DARIAH-ERIC. The MoU is a non-binding agreement between the European Commission and the German Government (Bundesministerium für Bildung und Forschung) and the Dutch Government (Ministerie van Onderwijs, Cultuur en Wetenschap) to support the establishment of DARIAH-ERIC.

In January 2011 DARIAH will embark on its Construction Phase as part of the ESFRI process. The expression of our international agreement with a joint signature of a non-binding Memorandum of Understanding is an important step forward in the process of establishing DARIAH-ERIC (European Research Infrastructure Consortium). Moreover, the signature promotes the project within the national roadmaps.

We sincerely hope that you will sign the Memorandum of Understanding by the end of September to show that your country is interested in participating in the DARIAH-ERIC to benefit from its Digital Research Infrastructure for the Arts and Humanities.

Yours faithfully,

Michel Lehoucq et Jacques Dubuc
